FIG. 11

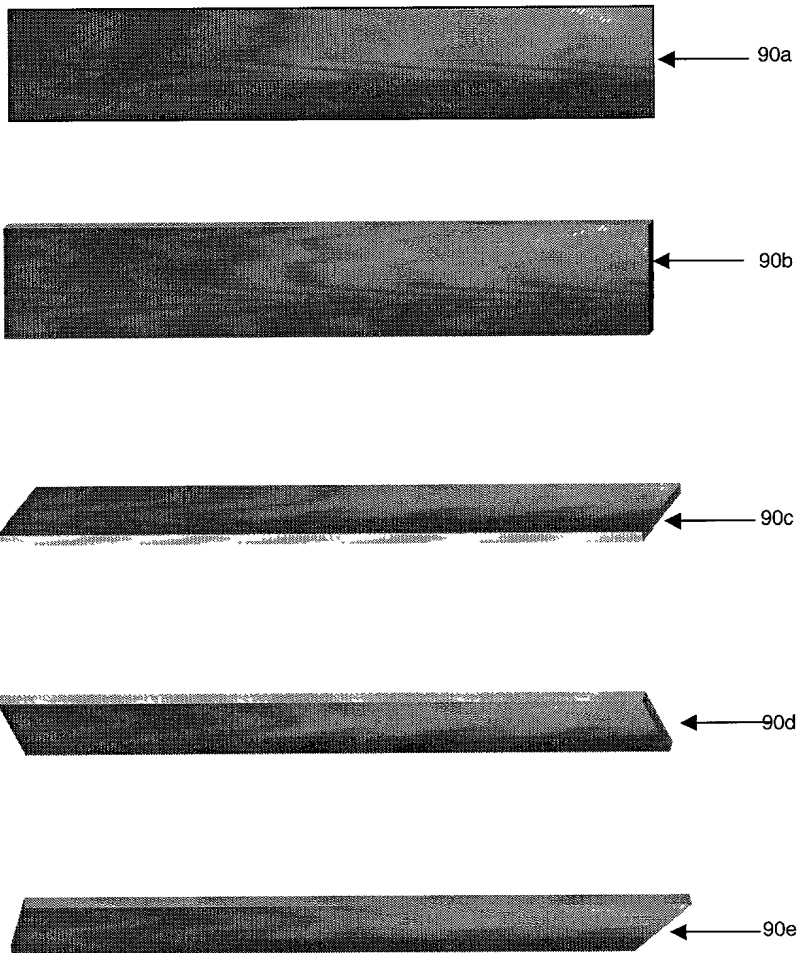

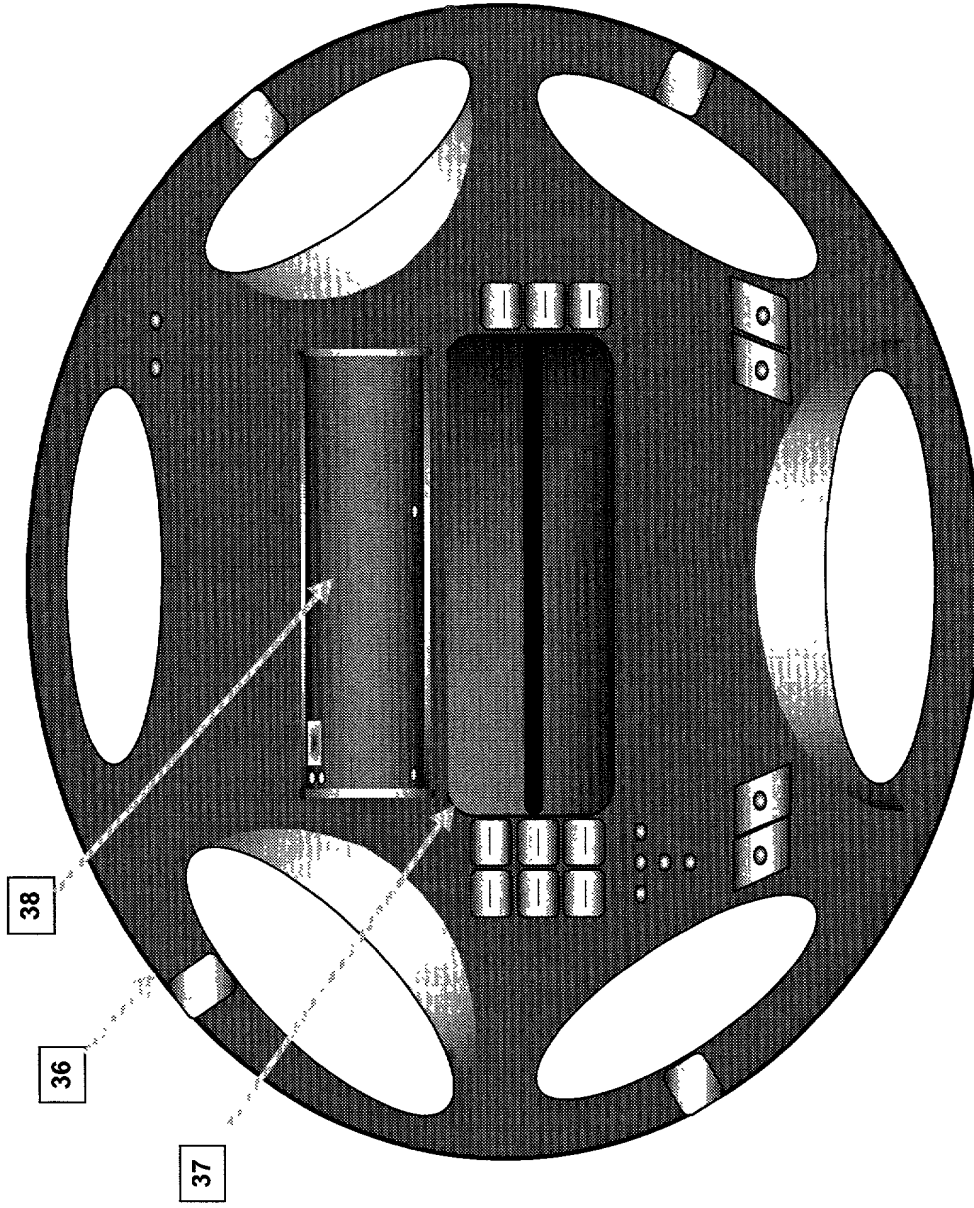

Figure 1: Schematic representation of the 12 genes and their genomic organization. The figure shows 12 horizontal tracks, each representing a gene. Each track is divided into exons (represented by boxes) and introns (represented by lines). The genes are labeled on the left: 1. H1, 2. H2, 3. H3, 4. H4, 5. H5, 6. H6, 7. H7, 8. H8, 9. H9, 10. H10, 11. H11, 12. H12. The tracks show the relative positions of exons and introns for each gene, with some genes having multiple exons and introns. The tracks are arranged vertically, with the 12th gene at the top and the 1st gene at the bottom.
